# Our Educational Philosophy

## The 6 Pillars of Academics

**Our Vision is to Help Students Succeed in a Global Community** and we developed our 6 Pillars to make our students learning journey as effective as possible.

### 6 PILLARS OF ACADEMICS

- 1 OUR VISION**  
Helping students succeed in a global community.
- 2 OUR COURSE DEVELOPMENT**  
Research-based and data driven.
- 3 OUR METHODOLOGY**  
The communicative approach – the EC way.
- 4 OUR ASSESSMENT**  
Formative, personalised and relevant.
- 5 OUR CONSISTENCY**  
Company-wide standards and training.
- 6 OUR PROMISE**  
Your progress is visible and guaranteed.

### 1 OUR VISION

#### To help students succeed in a global community

Academically this means we work with our students to improve their **communicative competence**, ensuring they have the language, the confidence and the skills to interact with other English speakers from all backgrounds and capabilities. We have built our courses, our support and our schools to ensure our students are **not just learning English but learning to communicate effectively**.

### 2 OUR COURSE DEVELOPMENT

#### Research-based and data driven

We believe in **continuous innovation** and have made research a cornerstone of the ongoing process of review and development. This informs all aspects of academic management from our curriculum, to support, to teacher training. We have a **very experienced team** that is dedicated to developing our academic offering.

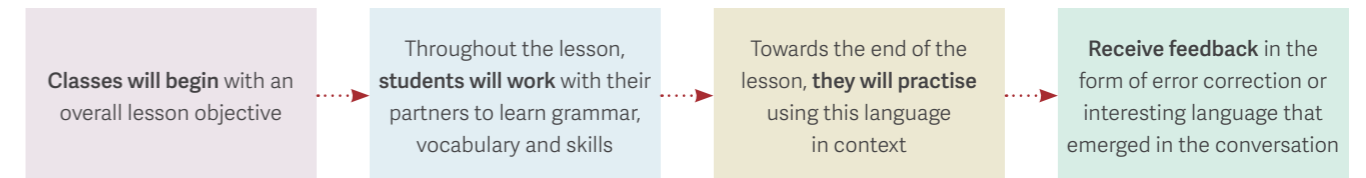

### 3 OUR METHODOLOGY

#### The communicative approach – The EC Way

We are committed to putting students at the centre of their learning and engaging them in a visible process to **build their learning, cultural awareness** and their **language skills**.

By building their learning skills, students attain a lifelong benefit, enabling them to take advantage of all learning opportunities they encounter, both in and out of the classroom, and as a result, **progress more quickly**

#### What happens in an EC classroom

We ensure our students are getting the most up to date and **evidence-based teaching methodology**

### HOW IS EC DIFFERENT?

EC employs the **Communicative Approach**. However, at EC it's not about doing what works, it's about doing what works best. We believe our learners benefit from:

- Knowing what they're learning.
- Knowing why they're learning it (how it can be used in their lives outside the classroom).
- Knowing what success looks like.
- Choosing their personal levels of success.
- Knowing what they need to do better next time.

### HOW DO WE ACHIEVE THIS?

- We provide **real-life objectives**:
  - Our objectives are written so that students can see how this lesson will impact their life outside the classroom.
  - Here's an example of a real-life objective: Be able to make a plan with others (e.g. where to eat).
  - In this example students are learning to make a plan. As this is something they do regularly, they can see how this will benefit their lives and how to put it into practice instantly.
- We provide **clear aims**.
- We **discuss** lesson aims & objectives.
- We enable our learners to choose what **success looks like for them**.
- We include **feedback, reflection and repetition** in every lesson.

### 4 OUR ASSESSMENT

#### Formative, personalised and relevant.

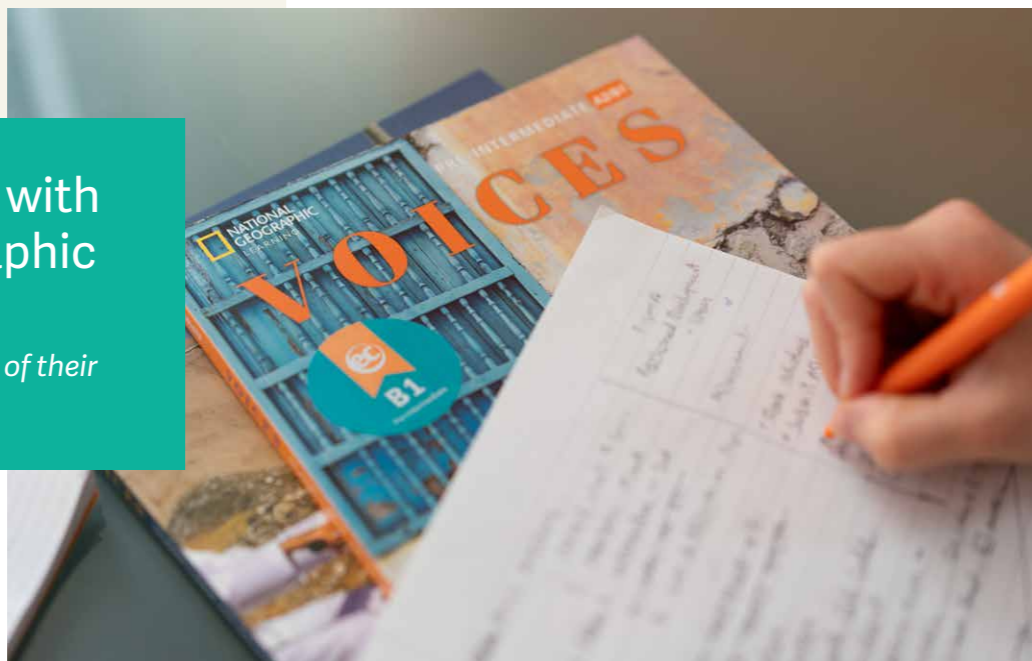

We believe that assessment should primarily be a formative process, a true reflection of a student's capabilities which informs them on their learning needs and successes.

#### Our assessments occur:

Pre-Arrival | Daily | Weekly | Monthly | At the end of the course

We work closely with National Geographic Learning

to inform the development of their teaching materials

### 5 OUR CONSISTENCY

#### Company-wide standards and training

We ensure consistency by making sure our processes are robust and build good practice across all our centres.

#### To ensure consistency in learning experience and support:

- All Directors of Studies are inducted and trained in EC policies and procedures.
- All teachers receive the same induction to the Communicative Approach the EC way. They are assigned training modules based on their individual needs.
- All teachers are observed regularly.
- All our schools are committed to the continuous professional development of the academic team.
- All schools are audited once a year by a member of the senior management team.
- All schools are accredited by an external accreditation body.

### 6 EC PROMISE

#### Student's progress is visible and guaranteed

We believe in continuous innovation and have made research a cornerstone of the ongoing process of review and development. Before a student arrives, we provide guidance on setting effective learning goals, as research shows goals drive results.

Our lesson and assessment structure are both built around feedback. Our **Feedback Friday** provides space for **reflection, review of goals** and feedback.

Over the last 10 years we have been collecting data on our students' progress and we use this data to further develop our EC Promise.

#### We promise you will progress when

You attend **96%** of your classes

You complete at least **three homework assignments** per week, with an average score of **9/10**

You participate in lessons, with an average score of **9/10** for **participation and motivation**

EC has partnered with National Geographic Learning (NGL) since 2017. We chose to work with NGL not just because of their exceptional materials, but because their aim, to **bring the world into the classroom and bring the classroom to life**, is closely aligned with our own vision. Like EC, they see the importance of developing intercultural communication within the classroom to help students succeed in the global community outside the classroom.

EC's product team works closely with NGL, regularly testing or offering feedback on new materials. They frequently meet with the editorial teams of major NGL titles to discuss the direction their textbooks will take, which means that EC is "not just reacting to the materials provided, but informing what those materials are" (Michael Cummings 2023).

## Accommodation options

### CHOOSING THE RIGHT ACCOMMODATION FOR YOU

Your accommodation choice will also impact your learning. By mixing with other students in different classes or staying with a family, you will have more opportunities to practice what you learned in class, learn about different cultures and ways of life - and expand your network and social circle too!

The trick is to choose the type of accommodation that best suits your lifestyle and personality, as well as your hopes and goals for your study abroad destination, rather than choosing accommodation based solely on cost or distance from the school.

\*The type of accommodation offered depends on the school building.

### HOMESTAY:

#### Experience the life of a local family.

Depending on the city, you can choose to stay with hosts with or without dinner, with a private bathroom, in a private or shared room, or without pets in case of allergies. Travel time to the school varies from 30 to 90 minutes, depending on the city, and you will be notified of the family you will be staying with approximately two weeks before your stay.

### STUDENT RESIDENCE

#### Great facilities for students to socialise in moderation.

The student rooms are in a large building and there are many shared spaces. There is a choice of private or shared rooms and, depending on the category, there are shared and private showers and toilets, as well as a gym and other facilities.

### HOUSES AND APARTMENTS SHARED BY STUDENTS

#### Local and international living experience

Students mainly live with other students in houses or apartments, each with a bedroom, shared living room, kitchen, bathroom, etc. These houses or apartments are smaller than residences and are usually shared by the students. This is a great way to experience international life.

### STUDIO / ONE BEDROOM APARTMENT

#### You can live completely alone with a couple or a group of friends.

This is a type of shared residence or apartment where you can use the kitchen and bathroom all to yourself in a one-bedroom apartment structure. This type of accommodation is recommended for mature international students who want to spend time relaxing in their accommodation.
